

ASTR 250 Fundamentals of Astronomy Syllabus

Spring 2019 Steward 208 MWF 11-12pm

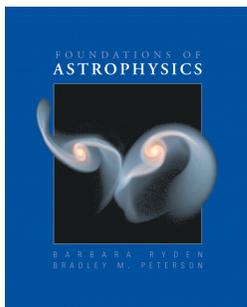

Instructor: Dr. Yancy Shirley Phone: 626-3666
yshirley@email.arizona.edu (include "AST250" in title)
N310 Steward Office Hours: Tu/Th 10-12
ATOMM in Parker Room Library (Mon through Fri 2-4 pm)
<http://eldora.as.arizona.edu/~yshirley/Arizona/AST250/>

ASTR 250 is an introductory class in astrophysics. In this class you will learn the basics of spherical trigonometry and positional astronomy, the structure of the solar system and Kepler's Laws, the detection methods of exoplanets, the virial theorem, stellar evolution and nucleosynthesis, galaxy structure and evolution, the evidence for the existence of dark matter and dark energy, the big bang theory, and the structure and evolution of the Universe.

Pre-requisites: PHYS 141 or 161H, and MATH 129 (Calculus II).

Recommended Textbooks: (1) Ryden & Peterson **Foundations of Astrophysics**
(2) Franknoi, Morrison, & Wolff **Astronomy** <https://openstax.org/details/astronomy>

Grading: Homeworks (75%) Midterm Exam (10%) Final Exam (15%)
The final grade maximum scale is set at: A(>90%), B(>75%), C(>60%), D(>50%).

Midterm: Feb 27th 11:00am

Final Exam: May 6th 10:30 am -12:30 pm

- Your grade in this course will depend heavily on your performance on the homeworks (75% of total including both in-class and take-home questions) and less so on the midterm and final exams (25% of total).
- We will have several in-class homework problems where you will work in pairs or groups of 3. ***In-class attendance is required to receive full credit for in-class problems*** (half credit will be given for in-class problems turned in as normal homework with skipped attendance).
- Homework assignments are due at the beginning of class. Homework due dates will be posted on the course webpage.
- Emergencies and life circumstances happen! Please ***contact me in advance*** via email (yshirley@email.arizona.edu) if you know you will miss a class or cannot turn in a homework and we can work out a plan. Otherwise, late homework will not be accepted.
- If you incorrectly solve a homework problem, you may correct the problem and turn it back in for half additional credit ***with the next homework assignment***.
- Homework will not be accepted on the last day of class.
- The final homework score for the class is the average of all homework problem percentages. ***You may drop your lowest homework problem score*** in the calculation of the final grade.

Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials. Modern science is collaborative, and people learn from talking to each other. However, graded work/exercises must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the UA Code of Academic Integrity as described in the UA General Catalog. See: <http://deanofstudents.arizona.edu/academic-integrity/students/academic-integrity>.

What this means specifically for our class is: Do your own work for take home assignments and the final exam. Feel free to talk to the instructor or other students about homework assignments. We will have in-class collaborative assignments where you work together. But the work you turn in for take home problems must be your own -- don't just copy out of class homework assignments. Copying is cheating and will be handled according to the university policies. Using or copying homework solutions from last year's class is also cheating. The repercussions for those found guilty of violating the Code will include loss of credit for the work and may include failure of the course or more extreme measures.

Requests for incomplete (I) or withdrawal (W) must be made in accordance with University policies, which are available at <http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete> and <http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal> respectively.

Dispute of Grade: Grades for homework may be disputed up to one week after they have been graded and handed back. Final course grades will be submitted by Tuesday May 8th.

POLICIES:

- The University is committed to creating and maintaining an environment free of discrimination; see <http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harrassment-policy>
- To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. Please be courteous to your fellow classmates (e.g., no texting, chatting, reading a newspaper, making phone calls, web surfing, etc. during class).
- The UA's policy concerning Class Attendance, Participation, and Administrative Drops is available at: <http://catalog.arizona.edu/policy/class-attendanceparticipation-and-administrative-drop>
- The UA policy regarding absences for any sincerely held religious belief, observance or practice will be accommodated where reasonable, <http://policy.arizona.edu/human-resources/religious-accommodation-policy>.
- Absences pre-approved by the UA Dean of Students (or Dean Designee) will be honored. See <https://deanofstudents.arizona.edu/absences>
- The UA Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See <http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students>.
- Our goal in this classroom is that learning experiences be as accessible as possible. If you anticipate barriers related to the format or requirements of this course, please meet with me so that we can discuss ways to ensure your full participation in the course. If you determine that disability-related accommodations are necessary, please register with Disability Resources (621-3268) <https://drc.arizona.edu/>) and notify me of your eligibility for reasonable accommodations. We can then plan how best to coordinate your accommodations.
- Information contained in the course syllabus, other than the grade and absence policy, may be subject to change with advance notice, as deemed appropriate by the instructor.
