

Chemical Safety – It's up to You!

Know the chemicals around you

- In your lab
- In the lab down the hall
- In the building

Know how to handle chemicals

- Use only as needed and directed and with training
- Dispose of properly
 - Not into sinks
 - Not into general waste
 - Into labeled containers or as properly directed

Know how to protect yourself

- Know the chemicals in your workplace
- Use proper procedures
- Use proper protective equipment
- Know and use proper emergency procedures for spills and exposures

Don't Expose Yourself!

For a list of chemicals in Steward Observatory labs and buildings
contact the Safety Committee at 621-8337

Safety and You!
